COVER STORY

A small group of club members made the annual trip to the National Corvette Museum Bash. The 40th anniversary of Corvette production in Bowling Green, Kentucky was celebrated. Some 2021 Corvette statistics include: The Corvette has led the list of fastest-selling new cars for three straight months. The Corvette is attracting new customers and retaining loyalists. Two-thirds of buyers are **new** to Chevrolet and the Corvette and the brand has doubled its growth with the younger generations. The key to the future is meeting it head-on and General Motors is doing just that.

The deadline for submissions to the next **Save The Wave** newsletter will be June 20th. The newsletter will be emailed to the membership by the 25th of each month.

President's Report

It's about time! Flowers blooming, grass mowing, warmer weather, barbecues, and getting back together. As of the writing of this article, 44 of Colorado's 64 counties have no public health orders in effect, and 2.4M of the state's 5.7M population is fully immunized. **Everything is trending positively to having a great summer** and getting back to doing the things we like to do like going to car shows, races, restaurants, and seeing each other's faces in person instead of via Zoom meetings.

On that note, **the 4C Board is conducting a poll of membership** to gauge the interest in resuming our in-person meetings. The poll does not close for a few more days, but of the people who have responded so far, **97% want to attend meetings in person**. Based on this trend, the 4C Board is in the process of identifying a venue for our June meeting. The room that we were renting from the City of Centennial is not available due to the city not allowing reservations until August. I have reached out to our sponsor, Kent Bozarth, to inquire about the possibility of once again meeting back at the dealership. In the interim, we are investigating the idea of meeting at a restaurant for the June meeting so we can enjoy dinner and have conduct club business. Stay tuned for developments and information regarding our next club meeting.

Our Scotchman Tribute car show committee has been working hard to plan and get things in motion for our event in August. The committee has met multiple times over the past month or so and are hammering out the details and logistics of our show. The flyer has been posted, the event is listed on our website, and **on-line registrations is open for our members**. Remember, unlike our previous Punkin Chunkin shows, our members can participate and are eligible to win awards because the show is going to be independently judged. The Scotchman Tribute will be limited to 110 cars and in 2019, there were over 105 cars that registered for this show. Word to the wise, **register now if you plan to attend** because this event will sell out!!

Until then, if you are looking for things to do with your Vette, read the minutes from our last meeting that listed numerous events that members are interested in. I will endeavor to get these events posted on our club website as well. Also, start paying closer attention to club emails as event captains send details of plans to attend upcoming events. As such, it is time to get cars show and shine ready because there is going to be ample opportunity to get out and do what a car club should be doing.

Looking forward to seeing you all soon, and let's have some fun this Summer!

Thanks,

Mark Harkleroad

The Scotchman Tribute Corvettes-Only Car Show

Sunday, August 8th 2021

Anderson Park

Wheat Ridge, CO

4355 Field Street

The Central Colorado Corvette Club has formed a Scotchman Car Show Committee to run the car show to be held on August 8, 2021 in Wheat Ridge. The club members on this committee are:

Barry Hawkins

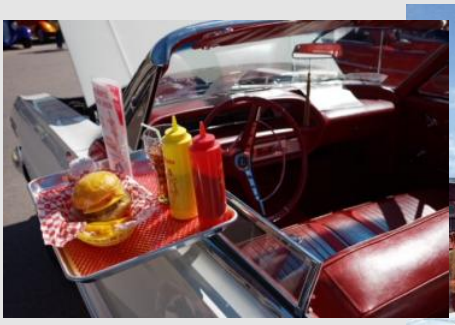
Leslie Shettler

Jay Hardesty

Traci Shea

Derald Lyons

Brodie Garnett



On-line registration for 4C members **only** will run from May 14th through May 21st. On May 22nd registration will then be open to the public as well. At some time in the future, a committee member may call upon you for some help with this show. Any help will be greatly appreciated. *Brodie Garnett*

Thank You

The Scotchman Committee would first like to thank **Mark Harkleroad** for his excellent work on the on-line registration for our car show. People have already found it very easy to access the flyer and register for this show. Mark will also be sending out mass e-mails to past attendees of the Scotchman and Punkin Chunkin Shows.

Secondly, we would like to thank **Traci Shea** for designing the 2021 flyer for this great show. She is very talented. The flyer creates interest in the show and will be a large part of its success.

Ambassador

THE 2021 MICHELIN BASH

The **National Corvette Museum** welcomed about 900 registrants, including myself, the last weekend in April. This season-launching event provided enjoyable seminars, cruises and off-site visits… and here are some seminar highlights.

Paul Koerner, World Class Corvette Mechanic, offered several tips for New Owners And Enthusiasts: Paul began his session discussing GM free resources for your Corvette. The best source is MyGM.com. Set up your account with the Corvette's VIN and you can information on recalls, warranty, service history, On-Star connection, etc. You can reach Paul directly at www.thecorvettemechanic.com to get advice and help. Among his tips were: **Do not add after-market** electronics to the C8 as they will cause havoc with the car's system. **If you track the C8**, you must change the alignment and then re-align for street use. **The new Dual Clutch** Transmissions with problems are swapped out by the dealers and not repaired; they're returned to GM for evaluation. **Functions on the C8** should be checked monthly to ensure that they are working properly. **The C8** is designed to prevent damage to the car. Programming will not activate a non-compatible function.

Corvette Assembly Plant Update: The Assembly Plant is celebrating 40 years in Bowling Green. **About 180** Corvettes are assembled each day in two shifts. There are about 1,500 parts in the C8 Corvette; since they are built to order; it is a difficult task for the employees. About **3.6% of the Corvettes** assembled are Right Hand Drive (RHD) and exported to Japan. Soon the C8s will be exported to Australia and Japan. There are 56 jobs impacted by the RHD assembly and 526 specific parts. **By 2030,** the plant will be solar powered. GM and the TVA are developing the energy systems**.** As of April 1, 41% of the Corvettes assembled were convertibles, the highest convertible/coupe ratio in history. **Tours** will open to the public when Chevrolet decides it is safe. **Mike Furman,** aka Mr. Corvette and No.1 Corvette dealer salesman in the world, was recognized by GM for selling 5,000 Corvettes. **Three new colors for** 2022, amplify orange Tintcoat, hypersonic gray metallic, and caffeine, were introduced and displayed on body panels.

Mobil 1 Tech Talk: Mobil, Corvette, and Corvette Racing have been partners for 25 years. **0W40 oil** is only certified for C7 and C8 Corvettes**.** 0W40 oil will get a new name soon. Mobil 1 0W40 is currently hard to find, however every Chevrolet dealer that sells Corvettes should have it in stock. Auto Zone carries it and the oil can be found on line. **A trivia question** ended the session: What was the viscosity of the oil in the first Corvette? Answer - SAE 20 in 1953.

National Corvette MEMBER Museum

Open Session Q&A with Michelin: Pilot Sport A/S^4 ZP (Zero Pressure or Run Flat) and Pilot Sport^4 ZP were developed for the C8. Get summer performance with all season A/S tires, with 23% lower rolling resistance. Faster in cold weather (no limit on temperatures to 0^0 F), they exhibit less tire wear and achieve 1g lateral acceleration (up from 0.85g for previous tires). The A/S^4 ZP is Michelin's flagship tire and will be available around July 1. **The Pilot Sport^4 ZP** has 3 new advanced tread compounds and 12% lower rolling resistance. All tires are now in production. **The Assembly Plant** aligns the tires based on the best performance for the Corvette. Before driving the Corvette after delivery, you should have it realigned to your driving mode.

Corvette Update with the Corvette Team: Tadge Juechter introduced Josh Holder as the Corvette Chief Engineer**;** Tadge is now the Executive Corvette Chief Engineer. The **2022** models can be ordered in July 2021. **The Assembly Plant** plans to complete 2021 orders, then switch to 2022 models. **Doug Fehan,** the 2021 inductee into the Corvette Hall of Fame was praised for his work as the Manager of the Corvette Racing Team. He now will assume the role as Ambassador for Corvette. Laura Wontrop Klauser is now the sports racing program manager. **Two teasers for the** 2022 C8: A lower profile spoiler option for C8's without the Z51 option, and a front splitter.

NCM NEWS

The National Corvette Museum opened its doors in 1994, and expanded in 2009, almost doubling its size in 2009. During the Michelin Bash, the NCM announced that they are enthusiastically progressing toward a 2 story - 30,000 square foot addition. The expansion as the Museum has continued to grow and space is needed for Museum displays. At this time there is no date for completion. The state-of-the-art campus addition plans include: Specialty Exhibit Spaces and Rotating Displays, Lifetime Members Lounge, Open Theater Space, Sensory Calming Room for Guests with Unique Needs, Kids Zone Education Center, and a Rooftop Members Lounge.

RAFFLES

- **June 10:** 2021 Torch Red Convertible: tickets are $150 and limited to 1,500
- **July 01:** 2021 Arctic White Coupe: tickets are $150 and limited to 1,500
- **Sept 04:** 2021 Torch Red Coupe: tickets are $20 and unlimited

Doug Fehan

Wendell Strode

The color selections for 19,362 builds/orders as of April 1, 2021 for the 2021 model year Corvette C8 are as follows:

1.	Torch Red	20%
2.	Arctic White	14%
3.	Red Mist (new color)	13%
4.	Black	10%
5.	Rapid Blue	9%
6.	Silver Flare (new color)	7%
7.	Elkhart Lake Blue	6%
8.	Sebring Orange	6%
9.	Ceramic Matrix	5%
10.	Shadow Gray (new color)	5%
11.	Accelerate Yellow	3%
12.	Zeus Bronze	2%

Coupe Models	59%
Convertible Models	41%

As of March 31, 2021 the average **MSRP** sales price of a C8 was **$87,390.**

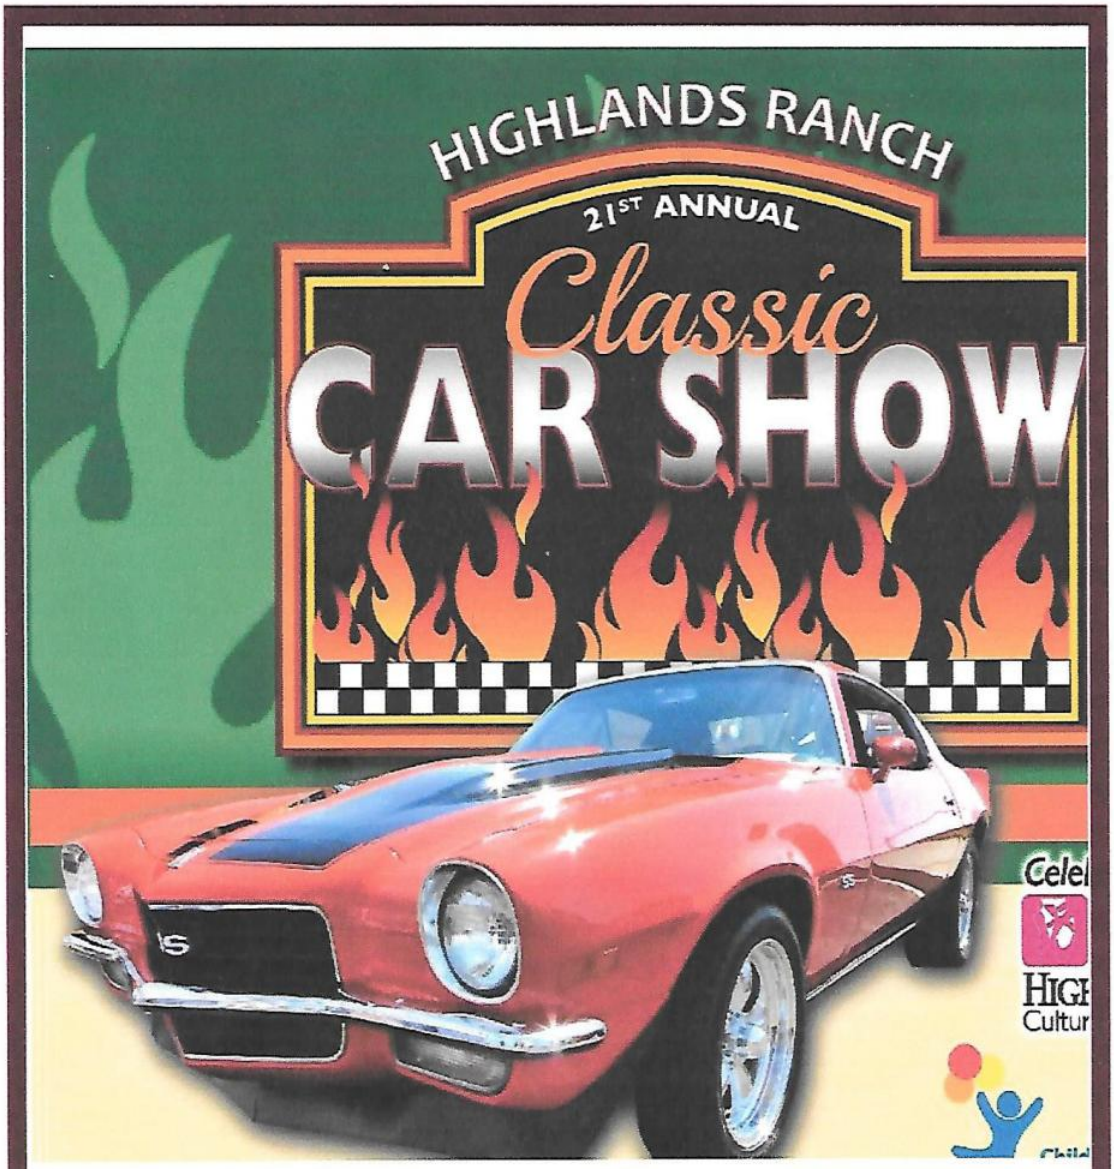
By Brian Coll on June 12th



The 21st annual Highlands Ranch Cultural Affairs Association Classic Car Show returns this year! This is the perfect weekend activity that the whole family will enjoy. Get out of the house and see some great unique and classic cars, service vehicles, and trucks!

Register your classic, antique, unique, or new car! You don't have to have a classic car to participate, we're looking for any cool cars you want to show off! From lifted Jeeps to Model T's and everything in between. Instead of an entry fee, donations will be accepted and will go to the Cultural Affairs Association to help us continue to fund our cultural programming.

Please Register by June 1
***First 130 Cars Registered will get a Limited Edition Dash Plaque**

The Annual Classic Rock Cruise In Car Show is scheduled for **Saturday, June 19, 2021** from 10:00 am to 3:00 pm in historic downtown Castle Rock, Colorado. Registration is now open. For more information, contact the Vintage Car Club at their website thevintagecarclub.com.

I will be leading the effort on this show, and like the others, we will be meeting early for breakfast before driving in and parking together.

Barry Hawkins

On May 10th, I took my 2015 Corvette in for service at the Park Meadows dealership. I have owned the car for over 6 years and it needed a check-up. This included a full fluid check, new battery, an oil change and some new weather stripping. Greg Ruybal, the Senior Service Representative handled my car and I was pleased with the results.
